

TBBC 2009

TAIWAN BRITISH BUSINESS COUNCIL (TBBC) 2009, 8/9 JUNE, TAIPEI INFRASTRUCTURE BUSINESS OPPORTUNITIES IN TAIWAN

Want to get ahead of your competitors? Looking for new business streams to fight your way through the recession?

- Did you know that Taiwan is implementing the `i-Taiwan' 12 infrastructure projects, covering urban & environment regeneration and the transportation network? A staggering £80bn will be spent on these projects over the next 8 years.
- Did you know that Taiwan is expected to become a member of the WTO's Government Procurement Agreement (GPA) by mid 2009? This will also open up an additional £17bn worth of the Taiwanese government procurement market to foreign bidders from 2010 onwards.
- Did you know that Taiwan's relations with China have been transformed, opening up new opportunities for Cross Straits trade

The TBBC has an unrivalled access to the Taiwanese Administration and key decision-makers and they are offering an intensive 2-day programme of meetings & briefings to UK businesses operating in the infrastructure sector. This will give you unique first hand market intelligence, make contacts at the highest level and position you and your business ahead of your competitors.

The TBBC is a group of senior business people backed by Standard Chartered, HSBC and Mott MacDonald, who have long standing experience in Taiwan, as well as the Chairmen of Taiwan Cement Corporation and CTCL. This event is supported by UK Trade & Investment and its unofficial representation in Taiwan, the British Trade & Cultural Office. Together this is a classic case study of UK Government and Private business working together to generate opportunities for UK companies and to address market access issues.

Benefits to TBBC business delegates include:

- Briefing on current investment projects relating to i-Taiwan's 12 projects, specifically
 - Taoyuan International Air City (est £1.3 billion)
 - Urban and Industrial Zone Regeneration (est £1.1 billion)
 - Penghu County International Tourism Resort (120hac) (est £600 million)
- Meeting with potential Taiwanese partners
- Meeting with a Taiwanese Minister
- Networking with major UK players with a presence in the market
- Further information on the market opportunities and the programme are available from the TBBC Secretariat, Mike Qureshi, below.
